

## Green Stimulus: One Year Later

Wednesday, February 17, 2010

9:30 am – 12:00 pm

B1 Conference Room, CSIS  
1800 K Street, NW, Washington, DC 20006

9:30 a.m. **Welcome and Introduction**

**Frank Verrastro**, Senior Vice President and Director, Energy & National Security Program, CSIS

9:35 a.m. **Keynote Remarks**

**David Sandalow**, Assistant Secretary for Policy and International Affairs, U.S. Department of Energy

10:20 a.m. **Panel Discussion**

Moderator: **Sarah Ladislaw**, Senior Fellow, Energy & National Security Program, CSIS

Panel:

**Nick Robins**, Head of Climate Change Centre, HSBC

**Julian Wong**, Senior Policy Analyst, Energy & Climate, Center for American Progress

**Ethan Zindler**, Head of North American Research, Bloomberg New Energy Finance

**Kevin Book**, Managing Director Research, Clearview Energy Partners, LLC

The United States is in the process of making an unprecedented investment in clean, efficient and renewable energy technology and infrastructure through the American Recovery and Reinvestment Act of 2009 (ARRA). This investment, up to \$80 billion by some estimates, is perhaps this Administration's strongest action to date to show its support for action to address our nation's economic, energy security, and climate change concerns. The U.S. Department of Energy (DOE) was entrusted to execute nearly \$43 billion in loan guarantees, grants, and tax incentives to stimulate U.S. economic recovery and jumpstart the transition to a more secure, low carbon future. February 17, 2010 marks the one-year anniversary of ARRA.

To highlight this occasion, and as part of our series focusing on energy and climate strategies in a post-Copenhagen environment, the CSIS Energy and National Security Program will host a session to review progress made in executing the ARRA funds entrusted to DOE, the early impacts of that spending, and the broader strategy for expanding clean energy growth in the United States. We will then have a panel of experts discuss the success of stimulus spending in several countries and the strategies for continuing momentum behind clean energy investment. We hope you will join us for this timely and important event.

Registration is required. To register for this event, please send an email with your name and affiliation to [energy@csis.org](mailto:energy@csis.org).
