## **GORDON ENGLAND**

Gordon England was confirmed as the first Deputy Secretary in the U.S. Department of Homeland Security on January 30, 2003. The Department of Homeland Security was established on January 24, 2003, to integrate 22 different agencies with a common mission to protect the American people.

Previously, Secretary England served as the 72nd Secretary of the Navy from May 24, 2001 until confirmation as Deputy Secretary. As Secretary of the Navy, Mr. England was responsible for an annual budget in excess of \$110B and over 800,000 personnel.

Mr. England served as executive Vice President of General Dynamics Corporation from 1997 until 2001 and was responsible for two major sectors of the corporation: Information Systems and International. Previously, he served as Executive Vice President of the Combat Systems Group, President of General Dynamics Fort Worth aircraft company (later Lockheed), President of General Dynamics Land Systems company and as the principal of a mergers and acquisition consulting company.

A native of Baltimore, Mr. England graduated from the University of Maryland in 1961 with a bachelor's degree in electrical engineering. In 1975 he earned a master's degree in business administration from the M.J. Neeley School of Business at Texas Christian University and is a member of various honorary societies: Beta Gamma Sigma (business), Omicron Delta Kappa (leadership) and Eta Kappa Nu (engineering).

Mr. England has been actively involved in a variety of civic, charitable and government organizations, including serving as a city councilman; Vice Chair, Board of Goodwill, International; the USO's Board of Governors; the Defense Science Board; the Board of Visitors at Texas Christian University; and many others.

He has been recognized for numerous professional and service contributions from multiple organizations such as the Distinguished Alumnus Award from the University of Maryland; the Department of Defense Distinguished Public Service Award; the Silver Beaver Award from the Boy Scouts of America; the Silver Knight of Management Award from the National Management Association; the Henry M. Jackson Award and the IEEE Centennial Award.

## **ABOUT CSIS**

For four decades, the Center for Strategic and International Studies (CSIS) has been dedicated to providing world leaders with strategic insights on — and policy solutions to — current and emerging global issues.

CSIS is led by John J. Hamre, formerly Deputy Secretary of Defense, who has been President and CEO since April 2000. CSIS is guided by a Board of Trustees chaired by former Senator Sam Nunn and consisting of prominent individuals from both the public and private sectors.

The CSIS staff of 190 researchers and support staff focus primarily on three subject areas. First, CSIS addresses the full spectrum of new challenges to national and international security. Second, we maintain resident experts on all of the world's major geographical regions. Third, we are committed to helping to develop new methods of governance for the global age; to this end, CSIS has programs on technology and public policy, international trade and finance, and energy.

## **ABOUT THE FORUM**

CSIS Technology and Homeland Security Forum, an ongoing series of programs developed by the CSIS Transnational Threats Initiative, hosts senior national security specialists as they present their insights and vision on terrorism, technology, and homeland security to senior policymakers, intelligence officials, and corporate executives.
