

## INVITATION

### **ALTERNATIVE TRANSPORTATION FUELS**

Session VII- Infrastructure

**9:00 AM - Noon**

**Thursday, May 17, 2007**

**CSIS B-1 Conference Level, Room B**

**1800 K Street, NW, Washington DC**

The CSIS Energy Program and Global Strategy Institute together with the National Renewable Energy Laboratory are pleased to invite you to the seventh session of the Alternative Transportation Fuels series.

The series purpose is to survey the transportation choices which will confront the U.S. consumer in the decades ahead. The project is taking a look at transportation fuels and vehicle technology, the two main options for changing the demand pattern in the United States. The sessions aim to bring experts together in a constructive public dialogue to discuss solutions for meeting consumer demand while avoiding price spikes and fuel shortages.

This session, the seventh in our series, looks at infrastructure and will feature experts from the agricultural, refining, pipeline, and rail sectors to discuss challenges and solutions to bringing new alternative fuels to market. This will be the final installment of the series.

We hope you are able to join us on the 17<sup>th</sup>.

To RSVP for this session, please email [energy@csis.org](mailto:energy@csis.org).
